

Catch::MessageStream

```
classDiagram
    class Catch_MessageBuilder["Catch::MessageBuilder"]
    class Catch_MessageStream["Catch::MessageStream"]
    Catch_MessageBuilder --|> Catch_MessageStream
```

The diagram illustrates a class hierarchy. At the bottom is a white box labeled 'Catch::MessageBuilder'. A blue arrow points upwards from this box to a gray box at the top labeled 'Catch::MessageStream'. This indicates that 'Catch::MessageBuilder' inherits from or specializes 'Catch::MessageStream'.
