

`common::he_init`

```
graph LR; A[common::he_init] --> B[utec::algebra::Tensor::shape]
```

A diagram showing a call from the `common::he_init` function to the `utec::algebra::Tensor::shape` method. The `common::he_init` box is shaded gray, and the `utec::algebra::Tensor::shape` box is white. A blue arrow points from the left box to the right box.

`utec::algebra::Tensor  
::shape`
