

Catch::Session::Session

```
graph LR; A[Catch::Session::Session] --> B["Catch::IRegistryHub  
::getStartupExceptionRegistry"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'Catch::Session::Session'. The right box is gray with a black border and contains the text 'Catch::IRegistryHub' on the first line and '::getStartupExceptionRegistry' on the second line.

Catch::IRegistryHub
