

utec::neural\_network  
::Dense::update\_params

utec::neural\_network  
::Kan::update\_params

utec::neural\_network  
::lOptimizer::update

```
graph LR; A[utec::neural_network::Dense::update_params] --> C[utec::neural_network::lOptimizer::update]; B[utec::neural_network::Kan::update_params] --> C;
```

The diagram illustrates a dependency or call relationship. Two source functions, 'utec::neural\_network::Dense::update\_params' and 'utec::neural\_network::Kan::update\_params', are shown in white boxes on the left. Blue arrows point from each of these boxes to a single target function, 'utec::neural\_network::lOptimizer::update', which is shown in a gray box on the right.
