

```
Catch::StringMaker  
< R, std::enable_if  
_t< is_range< R >::value  
&&!::Catch::Detail::IsStreamInsertable  
    < R >::value > >::convert
```

The diagram illustrates a function call. A grey box on the left contains the C++ code for `Catch::StringMaker`. A blue arrow points from this box to a white box on the right labeled `Catch::rangeToString`. A curved blue arrow loops back from the right side of the `Catch::rangeToString` box to its left side, indicating a recursive or self-referential call.

Catch::rangeToString
